Windows®

One USB Type-A port on your host computer

Or one PS/2 port on your host computer

## KEYSONIC **KSK-3211 ELU** Super-Mini USB Keyboard with Backlight for Windows®

### No need to type in the dark

The backlighting of the keys is particularly pleasant on the eyes. This greatly improves typing in darkened rooms or in poor lighting conditions. If, on the other hand, it is broad daylight, the backlighting can also be switched off completely via the keyboard.

### Touchpad included

The integrated touchpad is easy to operate and is sufficiently dimensioned for a compact keyboard. The additional mouse buttons, together with the touchpad, fulfil all the functions of a standard PC mouse, so that there is no lack of the necessary cursor navigation when working.

### Space-saving

Thanks to its super-mini design, the keyboard fits on any desk, no matter how small it is or how busy it is with work materials. It is also suitable for transport. Thanks to the integrated number pad, all the functions of a Full-Size keyboard can be used, despite the compact design.

#### Logistical data

**Packing unit:** 30 pcs. / carton  
**Total weight:** 15.4 kg / carton  
**Gross weight:** (with packing): 0.480 kg / Article  
**Net weight:** 0.365 kg

**Dimension/carton:** 400x495x265 mm  
**Dimension (with packing):** 195x240x30 mm  
**Dimension of article:** 155x220x20 mm  
**Country of origin:** China
