## KEYSONIC **KSK-802BT** Bluetooth® 3.0 aluminium keyboard

### Elegant modern design

The timeless design of the sturdy aluminium body of the KSK-802BT gives any environment a touch of elegance. The modern, white keys give the picture an additional welcoming light.

### The interpreter

She's not only good-looking. Multichannel-enabled Bluetooth® technology allows the keyboard to be paired with up to three devices simultaneously. You can then switch back and forth between the devices with the touch of a button. Apart from multitasking, this keyboard can also be switched to the desired layout by pressing a key combination. Whether Windows, macOS, or Android, the KSK-802BT speaks all languages.

### No cables, no compromises

The Bluetooth® connection allows distances of up to 10 m. No cables, no compromises, pure functionality. The keyboard is configured in such a way that the integrated battery is always saved in order to maximize its service life.
