- Bidirectional design - transmission in both directions
- High quality - gold-plated connectors
- Secure connection - fixing screws included

Packing content

1x IB-AC552, 1x manual

The IB-AC552 is a DVI-D to HDMI® adapter and connects DVI-D outputs, e.g. from Docking Stations or desktop PCs, with HDMI® devices such as TVs, monitors and the like. With HDMI®, a resolution of Ultra HD can be displayed, which means up to 3840x2160@60 Hz. For screen display, either the mirror mode or the extension mode for monitors can be used. No driver installation is required, the IB-AC552 simply works via Plug & Play.

Technical data

Model	IB-AC552
Article no.	60983
EAN code	4250078173205
Brand	ICY BOX
Colour	Black
Material	PVC
Resolution	Up to 3840x2160@60 Hz
Interface to host computer	DVI-D
Output	HDMI® Type-A

Plug & Play

Yes

Audio

No

Resolution HDMI

Up to 3840x2160@60 Hz

Operating system

Independent

System requirements

- HDMI®-capable display with cable as required (not included)
- A 4K-capable display and corresponding graphics card is required to achieve 3840x2160@60 Hz resolution

ICY BOX **IB-AC552** DVI-D to HDMI® adapter

Bidirectional video adapter

Monitors or TVs with DVI inputs can now be used with PS5 or graphics cards that have an HDMI® port via this DVI-D to HDMI® adapter. The bidirectional adapter transmits high-quality signals via an HDMI® cable from a DVI-D capable host (e.g. notebook or DockingStation) to an HDMI® capable monitor or from an HDMI® equipped host to a DVI-D equipped monitor.

Accurate fit

The HDMI® socket of the adapter is manufactured with millimetre precision so that an inserted HDMI® cable fits without play. In addition, the screws on the adapter ensure a perfect hold on your DVI device, even with long, heavy cables. Secure signal transmission is thus granted.

The adapter makes it fit

You already have a DockingStation like the ICY BOX IB-DK2241AC, but you want to work with two HDMI® monitors? Then either a new DockingStation like the IB-DK2251AC or this adapter for little money will help. The choice is yours. But in terms of sustainability, the adapter is a fantastic solution.
