| System requirements | One free USB 3.0 Type-A port on your host computer |

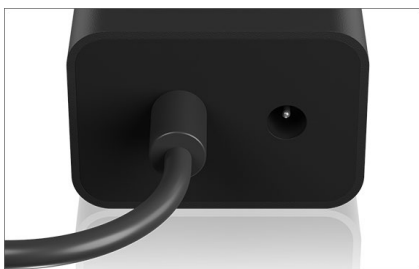

ICY BOX **IB-HUB1700-U3** 7-port USB 3.0 hub

No port free?

This question is now settled! Generally, seven USB ports are sufficient to cover the plug-in requirements of all possible devices. Seven times data transfer rates of up to 5 Gbit/s are available here.

Power pack included

Conveniently, the power supply unit is included in the scope of delivery. It supplies 5 V/3 A, i.e. a total power of 15 watts. This is quite enough to supply all seven ports with sufficient energy.

Compact design

Simple and black, the handy hub fits into almost all work environments, even in terms of colour. The application is very simple: with Plug & Play, simply plug the connected power supply unit into a power outlet, an external device into a free USB slot and off you go. The USB cable to the host computer is hard-wired to the hub and therefore cannot get lost.

Logistical data

Packing unit: 20 pcs. / carton
Total weight: 8.5 kg
Gross weight: (with packing): 0.372 kg
Net weight: 0.085 kg

Dimension/carton: 430x430x240 mm
Dimension (with packing): 80x100x200 mm
Dimension of article: 125x30x20 mm
Country of origin: China
