

## smrter SPEEDY100 - 100W high-speed charge & sync cable

The future of connectivity is USB Type-C - One day there will be only one port for all mobile devices.

Forget about long charging times and enjoy efficient charging that saves you time and increases your productivity.

The smrter SPEEDY100 is a USB-C charging and data cable with a maximum charging power of 100 watts and a data rate of up to 480 Mbit/s. This means you are perfectly equipped for the future.

Many of the newer devices can already be charged with USB C today. The technological progress of this next generation connection even makes it possible to charge energy-intensive devices such as laptops. But that's not all, data transfer or image projection\* are also possible with the modern cable.

The built-in E-Mark chip of the latest generation checks the connected devices in advance and automatically determines the optimum performance in order to charge and transfer data as efficiently and safely as possible.

### Data synchronization

Extremely fast, chip-controlled data synchronization with up to 480 Mbit /s. Transfer pictures, music, videos and other files from a Type-C device to your PC or notebook in just a few seconds.

### High-Speed

The cable enables fast charging of your smartphone, tablet or notebook with a charging performance of up to 100 watts and the corresponding fast charging protocols.

*A compatible and powerful power source is required to charge smartphones particularly quickly.*

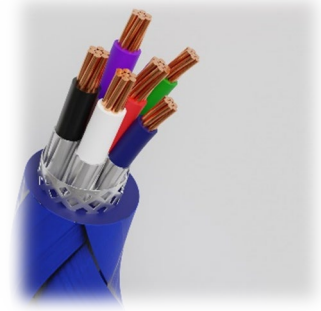

### E-Mark chipset

The high-quality E-Mark chip ensures that your devices will be charged quickly and safely. It automatically controls the relevant power supply parameters and adapts the charging speed to the connected device.

*\* This can lead to limitations at high frame rates.*

## Robust and stable

Double-insulated and sheathed in fine nylon fabric, the cable core is optimally protected against cable breakage. The aluminum housing and connections also have an anti-bend reinforcement.

## OTG power sharing

The OTG function makes it easy to transfer power from one smartphone to another. This allows you to share some of your own battery power to friends in an emergency.

*Only for OTG-capable smartphones (except for some Samsung Galaxy models)*

## Highlights

**HIGH - SPEED** | The cable enables fast charging of smartphones and supports the latest protocols, QuickCharge, PowerDelivery PD 3.0 100W, AFC, SCP and FCP. Up to 70% of the battery capacity can be added in approx. 30 minutes.

**DATA SYNC** | Extremely fast data synchronization with up to 480 Mbit /s. Pictures, music, videos and other data can be transferred from a USB-C device to your PC or laptop in just a few seconds.

**CLEVERLY CONNECTED** | The cable is equipped for use in vehicles and can connect your smartphone using Android Auto.

**ROBUST AND DURABLE** | Colour-anodized aluminium housing and a hard-wearing nylon sheathing of the cable strands as well as anti-kink reinforcement ensure a long service life.

## Available colors/lengths

**Anthracite**

**Blue**

**40 cm**

**100 cm**

**200 cm**

**100 cm**

## Technical details

<b>Material</b>	Nylon fabric / aluminum / plastic
<b>USB connector</b>	USB-C + USB-C
<b>Maximum charging current</b>	5A
<b>Maximum charging power</b>	100 W
<b>Fast charging protocols</b>	PowerDelivery: PD3.0 100W QuickCharge: QC2.0 5V 9V 12V 20V QC3.0 3.6 - 20V QC4.0 3.6 - 20V (5V 9V via PD) QC4.0+ 3.6 - 20V (5V 9V via PD) QC5.0 Samsung Adaptive Fast Charging AFC 9V 12V Huwawai Fast Charge Protocol: FCP 5V 9V 12V Huwawai Super Fast Charging: SCP 3.4 - 5.5V (25W)
<b>Data transmission</b>	yes - up to 480 Mbp/s
<b>Length</b>	40   100   200 cm
<b>Compatibility</b>	Suitable for all Type-C devices
<b>OTG power sharing function</b>	Yes – for almost all OTG-enabled Smartphones <i>(except some Samsung Galaxy models)</i>

## Further Information
