<b>Power supply</b>	1x AA battery
<b>Operating system</b>	Windows®, macOS®, Chrome OS®
<b>System requirements</b>	One free USB Type-A port or a Bluetooth® capable device

## KEYSONIC **KSM-6140BTRF-EG** Wireless ergonomic office mouse

### No cable – No problem

No tugging, no jamming: that's just one of the advantages a wireless mouse offers. The result is complete freedom of movement when working on your desk. What's more, the connection via Bluetooth® or radio is very stable and reliable within an effective radius of up to 10 metres.

### Simply ergonomic

The thumb rest of this office mouse allows you to achieve a natural hand position and relieves the strain on your hand. This leads to less fatigue and pain and is the key to comfortable and productive work. An investment in health that makes all the difference.

### A matter of adjustment

Setting the DPI (dots per inch) value allows you to adjust the sensitivity of the mouse to your own needs. This allows you to make faster movements with a higher DPI and work more precisely with a lower DPI. Flexibility, control and efficiency for perfect, individual working requirements.
