- Fast, simultaneous use of multiple USB devices
- Enclosure made of high-grade aluminium
- Integrated USB cable - 15 cm length

Packing content
1x IB-HUB 1429-CPD, 1x quick installation guide

Small but fine

The IB-HUB1429-CPD is a four port USB 3.1 (Gen 2) hub that can easily be connected to a USB Type-C™ port of a notebook or computer. This enables data transfer rates twice as high as USB 3.0 when using multiple USB devices simultaneously. In addition, on the side is an additional Type-C™ port with Power Delivery function, which can charge the connected notebook via its existing Type-C™ power supply. In addition, the integrated USB cable is always at hand for any connection.

Technical data

Model	IB-HUB 1429-CPD
Article no.	60710
EAN code	4250078170440
Brand	ICY BOX
Colour	Black
Material	Aluminium, plastic
Interface to host computer	USB 3.1 (Gen 2) Type-C™
Interface	3x USB 3.1 (Gen 2) Type-C™ 1x Type-C™ Power Delivery 100 W
Transfer rate	Up to 10 Gbit/s
UASP support	Yes
Plug & Play	Yes
LED	Power and access
Power supply	Bus-powered

Operating system System requirements

Windows®, macOS®
Host notebook with an available USB Type-C™ port. To ensure Power Delivery functionality, the host USB Type-C™ port must support USB Power Delivery. The hub also works on devices with a Thunderbolt™3 interface with a transfer rate of up to 10 Gbit/s specified by USB 3.1 (Gen 2). The Type-C™ interface can be connected with USB 3.0 or 2.0 standard in some computers and notebooks. The hub only supplies the full data transfer rate of up to 10 Gbit/s via USB 3.1 (Gen 2) Type-C™ host interfaces. The following operating systems are supported: Windows®, macOS®

ICY BOX **IB-HUB1429-CPD** 4 Port USB 3.1 (Gen 2) Type-C™ Hub

Compact design

It's all in the mix - and the IB-HUB1429-CPD shows the way. It has three USB Type-C™ as well as a Type-C™ Power Delivery port and thus supports the "new ones", which have already found their way into the working world and living rooms. This makes it the perfect companion for your new acquisitions.

Threefold USB performance

Favourite holiday photos need to be shared quickly with friends and family? No problem! With the USB 3.1 (Gen 2) standard it is now possible to transfer data to multiple devices simultaneously at twice the transfer rate of USB 3.0 - without having to repeatedly insert different storage media. This not only saves time, but also provides convenience.

Always available

By using the integrated cable you'll never ask yourself again "Where did I leave the right cable?" because now you are always ready to plug in your device.
