17-port USB 3.2 Gen 1 hub

5 Gbit/s

Fast connections under all conditions

The IB-HUB1717-U3 is equipped with 16 high-performance USB 3.2 Gen 1 ports, each with a data transfer rate of up to 5 Gbit/s, enabling synchronous connection to multiple USB devices, especially in industrial environments.

Durable design

The USB hub's housing is made of solid aluminium, offering outstanding durability and impact resistance compared to competing products made of plastic. For a secure hold, additional mounting brackets are included for desk attachment. This ensures long-term and reliable use.

7.5 W

USB charging port

The IB-HUB1717-U3 features a dedicated USB charging port that can charge mobile devices with up to 7.5 W of power. The output of the connected computer is used for this purpose and data processes are not affected by this. Therefore, a separate power supply unit is not required.
