Front panel adapter

A front panel adapter, like IB-HUB1419-i3, offers convenience by placing essential ports and connections directly within reach. You no longer have to search for USB ports at the back of your PC, but have everything you need right at the front. This accessibility not only saves time but also reduces wear on your system's rear ports.

Essential ports at your fingertips

This IB-HUB1419-i3 brings a variety of connection options directly to the front of your PC. It features USB Type-C® ports (20 Gbit/s and 5 Gbit/s), USB Type-A ports (5 Gbit/s), and dual card readers for SD and microSD cards. Simplify your workspace by combining multiple connection types into one easily accessible hub.

Advanced Type-E interface

Equipped with a USB Type-E connector, the IB-HUB1419-i3 offers direct integration with your motherboard, allowing data transfer speeds of up to 20 Gbit/s. The Type-E connection is designed to meet current and future hardware standards, making it a valuable addition for users who need fast and stable connectivity in their systems.
